

# MOUNTAIN BIKE | GRIPS

MOUNTAIN

## 1. ODI LOCK ON GRIPS

Replace grips in seconds without cutting. Unique clamps LOCK in place. Ruffian (1A) or Rogue (1B) texture, std. or SRAM length **\$11.95**

1C. ODI Lock Jaws for use with Lock On grips only. **\$11.95**

1D. ODI Lock Jaw Kit Allows for easy installation and removal of grips. Grips won't slip so you will never again suffer from "throttle grip". This kit included every thing you need — Locking clips/screws included. White or Black. **\$19.95**

## 2. PEDROS DIAMOND VICE LOCK ON GRIPS

Built-in clamps with small hex bolts that tighten down each end of grip eliminates slipping. Single density soft rubber, medium thickness, end caps included. **\$14.95**

## 3. OURY GRIPS

A thicker grip with super-soft rubber designed to provide superior cushioning in severe conditions. Black, Green, Yellow, Pink, Orange, Clear, Blue or Red. **\$9.95**

## 4. RITCHEY GRIPS:

4A. WCS: Ultra-light and anatomically designed comfortable foam grip. Black, only 50g/pair. **\$8.50**

4B. TGV Short: Shark tooth pattern for twist shifter compatible grip. Black, 44g **\$5.95**

4C. TGV Standard: Shark tooth pattern for excellent grip. Black, 88g **\$6.95**

4D. True Grip: High performance at a low price. Black, 100g. **\$4.95**

4E. True Grip 6 Dual Density: extremely durable and comfortable. Bar end plugs included. White, Black. 86g. **\$6.95**

4F. Lock On Grips: Keep your grips in place. Eliminate annoying grip twist just by tightening the 2mm hex nut. **\$11.95**

## ERGON

5. GP1 Grips: Anatomic platform makes it different than any other mountain grip. The Integrated forged aluminum bar clamp allows infinite adjust-ability and eliminates slipping once optimum position is achieved. Sold in pairs. **L \$29.95**

6. Ergon GP1 Superlight Grips: The GP1 series of grips offer maximum comfort and the best possible pressure distribution. The support platform is individually incrementally adjustable for the correct hand angle by simply turning the grip. Sold in pairs **S or L \$39.95**

7. Ergon GX1 Grips: Utilizing materials such as a lighter rubber compound and a carbon clamp the weight of the grip has been reduced by 30g - 35g compared to the original GP1. Sold in pairs. Grey or Team Green. **\$39.95**

8. Ergon GX2 Grips with Magnesium or Carbon Bar End: The same lightweight grip body as the GX1 but featuring a lightweight Carbon or Magnesium bar end. The bar end and support platform on the grip can be independently adjusted for the correct angle to allow the best fit.

Carbon: 178g pr **\$119.95**

Magnesium: 228g pr **\$59.95**

# BARS

## RITCHEY

1. Comp: Black Double-butted 6061 T-6 aluminum for top stiffness, light weight & damping.

Bend: 5" | Width: 580mm | Clamp Diameter: 25.4mm | Weight: 180g **\$19.95**

2. WCS: New, lighter and stronger 7075 alloy. Triple seamless butted—Black.

Bend: 5" | Width: 580mm | Clamp Diameter: 31.8mm | 130g **\$66.95**

3. Rizer WCS: Intended for XC use.

Bend: 6" Sweep: 9" | Rise: 20mm | Width: 660mm | Clamp Diameter: 31.8mm | 255g **\$74.95**

## EASTON

4. EC90 XC Carbon FlatBar: Proprietary CNT™ (Carbon Nanotube) technology for 15% more strength. The lightest XC bar available. 100% Carbon taperwall™ tubing with Intelligent Flexibility™ and a lifetime warranty.

Bend: 3" | Width: 560mm | Clamp Diameter: 25.4, 31.8mm | 108g **\$129.95**

5. Monkey Lite SL EC90: CNT™ technology for those who prefer a little rise in their position.

Sweep: 5" Upsweep: 9" | Rise: Low-20mm | Width: 610mm/645mm | Clamp Diameter: 25.4, 31.8mm | 135g **\$139.95**

6. EA70 MonkeyBar Rizer: Easton's most popular and strongest aluminum riser bar.

Sweep: 5" Upsweep: 9" | Rise: Low (20mm), Mid (30mm), and High (40mm) | Width: 685mm | Clamp Diameter: 31.8 | 265g **\$59.95**

7. EC70 Monkey Lite Carbon Bar: The world's lightest XC riser bar with Easton's CNT system.

Sweep: 5" Upsweep: 9" | Rise: Low (20mm), High (40mm) | Width: 660, 685mm | Clamp Diameter: 25.4, 31.8 | 135g **\$119.95**

## FULL SPEED AHEAD

8. K-Force Flatbar: Carbon/Kevlar Composite construction; full-width flat-top design; reinforced brake-lever and bar-end zones; reinforced and textured stem clamp zone.

Bend: 6" | Width: 600mm | Clamp Diameter: 31.8mm | Weight: 120g **\$129.95**

9. K-Force XC Carbon Bar Rise: Provides stiffness, carbon damping, and solid 31.8 stem clamping area.

Bend: 8" Sweep: 3" | Rise: 20mm | Width: 630mm | Clamp Diameter: 31.8mm | 170g **\$139.95**

## PRO

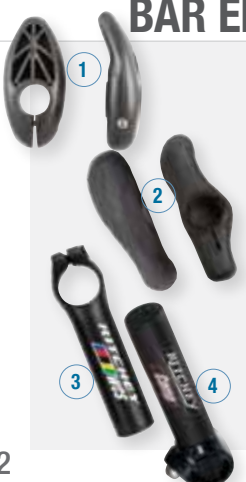

8. XCR OS Carbon Flatbar: Features strong and light unidirectional carbon fiber reinforced for strength and compatibility with bar-ends.

Bend: 5" | Width: 580mm | Clamp Diameter: 31.8mm | Weight: 151g **\$139.95**

9. XCR OS Carbon Riser: Provides stiffness, carbon damping, and solid 31.8 stem clamping area.

5° upsweep and 9° backsweep | Rise: 20mm | Width: 660mm | Clamp Diameter: 31.8mm | 195g **\$149.95**

# BAR ENDS

## SINGLETRACK SOLUTIONS

1. ST-Pro Bar Ends: Versatile, lightweight bar end designed for performance. They can be run in a forward or reward position. (Not Shown) **\$24.95**

## CANE CREEK

2. Ergo Control: The new aluminum spine clamp is engineered to be stronger and lighter. Compatible with ODI lock-on system grips and traditional grips. 175g/pair. **\$49.95**

## RITCHEY

3. WCS SL: An angled slot clamp reduces the stress on the handlebar created by the clamping force of the bar end. Constructed of 6061 alloy, 3D-Net shaped cold forged one-piece design, Angled clamp slot reduces stress on lightweight bars. 65g **\$36.95**

4. Comp: 2 piece bonded cold forged 6061 aluminum construction. Uses an oversized wide clamp to reduce handlebar stress. 128g **\$19.95**

# SUSPENSION

## FOX

<< Racing Shox Float Fluid: Lube the seals of the air chamber for front/rear Fox Racing Shox. 32oz bottle: **\$18.95** 5cc Pillow Pack: **\$2.99**

<< Racing Shox Float Air Sleeve Rebuild Kit: Fox OEM kit for rebuilding the Float Air sleeve. For rear shocks only. **\$6**

## TOTAL AIR

<< Suspension Fork Accessories:  
Deluxe Mini Pump: Swivel hose for convenience, folds away when not in use - No bleed pump head - Anatomic Handle - 300 psi max pressure. **\$38.95**  
Standard Shock Pump: Built-in no bleed head, bleed valve, an easy-to-read gauge, 300 psi capacity, durable construction and replaceable parts. **\$34.95**

## ROCKSHOX

<< HP 2 Stage Fork-Shock-Tire Pump: Aluminum barrel shock/tire inflation. 360 degree swivel hose with finger-tap bleeder. High pressure 300psi gauge with rubber casing and Schrader/Presta head (gauge is removable for secure storage). Includes H2O-boss mounting clip with bolts and Velcro strap. **\$39.95**
